## Professional Summary

Motivated IT student majoring in Cybersecurity at RMIT University, with practical experience in cloud setups, secure system design, and programming. I enjoy solving technical problems and communicating clearly with others, and I work well in team environments. I'm fluent in both English and Chinese and known for being reliable and attentive to detail. Currently looking for an IT or Cybersecurity internship where I can apply what I've learned and keep building real-world skills.

## Education

Sydney Boys High School

RMIT University - Bachelor of Information Technology

Feb/2024 – Present

- Majoring in Cybersecurity
- AWS Cloud Foundations
- Ethical Hacking
- System Development and Operations

## Skills

### Technical Skills

- Programming: Java, Python, MySQL
- Web and Cloud: AWS Foundations, HTML, CSS
- Cybersecurity: Ethical Hacking, Intrusion Detection, Network Analysis

### Soft Skills

- Strong communication skills – Led group presentations, taking charge of introducing and closing, as well as coordinating handover between members.
- Good team player – successful collaboration in group projects with good communication
- Professional conduct and eager to learn in fast-paced technical settings

## Projects

### Academic Projects

- Collaborated as part of a team to design and deploy a functional web application
- Built a secure multi-tier AWS VPC architecture using EC2, RDS, and IAM

### Tic Tac Toe Game (Personal Project)

- Built using Java
- Implemented game logic, win detection, and user interaction
- Used clean code structure with functions/classes

### Portfolio Website (In Progress)

- Building a personal portfolio website to showcase projects and skills
- Using HTML, CSS, and JavaScript
- Setting up hosting and version control through GitHub
